

Interviewer: Thanks for joining. Let's start with a technical deep-dive ? tell me about a challenging project you've led recently.

Candidate: We migrated a monolith to services over eighteen months

Candidate: Strangler fig pattern payments came last because risk

Candidate: OpenTelemetry plus Prometheus and Loki on one dashboard

Candidate: Canaries at five percent auto rollback on errors

Candidate: I would start with contract tests earlier

Interviewer: That's a solid foundation. How did you handle back-pressure when the pipeline fell behind?

Interviewer: That's a solid foundation. How did you handle back-pressure when the pipeline fell behind?

Interviewer: That's a solid foundation. How did you handle back-pressure when the pipeline fell behind?

Interviewer: That's a solid foundation. How did you handle back-pressure when the pipeline fell behind?

Interviewer: That's a solid foundation. How did you handle back-pressure when the pipeline fell behind?

Interviewer: That's all the time we have. Thanks for walking me through your work ? you'll get a feedback report shortly.
